

AVIATION MAINTENANCE TECHNOLOGY PROGRAM

Starting Fall 2024!

About Our Program

The Aviation Maintenance Technology program prepares individuals to apply technical knowledge and skills to repair, service, and maintain all aircraft components other than engines, propellers, avionics and instruments.

The program includes instruction in layout and fabrication of sheet metal, fabric, wood and other materials into structural members, parts and fittings and replacement of damaged or worn parts such as control cables and hydraulic units.

Program includes Aircraft Owners and Pilots Association (AOPA) and Choose Aerospace curriculum requirements. Articulation agreement with St Francis University.
