

GRADE 10

CAREER INTERVIEW REFLECTION PAPER

Write a reflection (of your interview questions) essay in the following format.

Your Name

Date

10thGrade Interview Reflection Paper (top left – single spaced)

(Everything after this needs to be double spaced)

Paragraph One

Your introductory paragraph needs to include introductory statements that say who you interviewed, what his or her job title is, where he or she works, when you interviewed this person, how you interviewed this person (in person, phone, email).

The introductory paragraph also needs to tell something about the career you are interested in. (For example: Ever since I was little, I loved caring for animals so it makes sense that I am interested in becoming a veterinary technician.)

This introductory paragraph should conclude with a statement that explains whether this (interviewing) experience was a positive or negative one for you and why.

Paragraph Two

The next paragraph should answer the following questions:

- Explain the most valuable information you learned during this interview process.
- Has this experience strengthened or weakened your interest in this career area AND why?

Final Paragraph

This paragraph needs to answer the question

- What do you plan to do during your high school and post-secondary studies to support your current career goals?

and have a summary of the whole experience or concluding statements.

NOTES

- The paper needs to be double spaced,
- Do not write out the questions and then answer them; the paper should flow –restate the question IN the answer.
- Do not use numbers or bullets.
- Check spelling, word use, and other conventions (a great way to do this is to read it out loud) before printing and turning in.
